Original Text:
“Whether you have morning sickness, motion sickness, or nausea from chemotherapy or radiation therapy, help may be no farther than your refrigerator or kitchen pantry. There are several foods that can help the body mitigate mild to moderate nausea. Pectin is a dietary fiber that occurs naturally in plant cell walls. Fruits such as apples, peaches, plums, and currents are good sources of pectin, as are carrots and potatoes. Ginger, also known as ginger root, is another very powerful plant that works on the digestive tract. Ginger is found in ginger ale, gingersnaps, gingerbread, and certain Chinese dishes. So the next time your stomach is feeling queasy, try reaching for a can of ginger ale, or nibbling a gingersnap cookie, an apple, or a carrot.”

Original Text:
“Who should teach children about personal finances? Ideally, it would be the child’s parent or guardian. However, many adults do not have the knowledge necessary to teach such concepts. This is evident by the staggering amount of credit card debt in the United States and the astounding number of adults who claim they cannot balance their own checkbook. Many argue that schools must step in and teach personal finance. Adding this requirement to the compulsory curriculum would require that more teachers be hired, which many school districts cannot afford, and would increase the credit requirement for graduation.”
